VCS Repository: Git/GitHub

github issues

Project Tracking: GitHub Issues

Tools

Database: SQLite 3

Testing: Python Unit Test

Tools

Auto-documenter: Sphinx

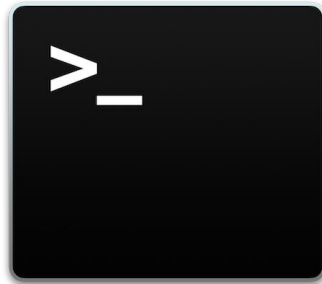

Travis CI

Continuous Integration: Travis CI

Tools

Deployment Environment: Terminal

Methodologies

- Agile
 - GitHub issues to track next set of goals
 - 3 sets of different goals through the semester
- Peer Code Reviews
 - Pull requests on GitHub
 - Conversation over changes
 - Review before committing changes to

Challenges

- Merge conflicts
- Getting access to Spotify playlists
- Ambitious project
- Testing without making requests to Spotify

Demo
